He has worked up a boom in his line in this section and has sold a number of fine instruments in the last few weeks.

Yesterday morning about 11 o'clock, Mr. John Griffin was about to get into his wagon at the door of the water company's office, on St. Clair street, when the horse attached to it got his tail over the line, became frightened and ran across the street, the wagon coming in contact with a lamp-post, was upset, the dash board broken off, and other slight damage done. The horse broke loose from it and ran rapidly towards the bridge, but was caught before going very far.

There will be a final meeting of the Chautauqua Circle at the residence of Mr. C. E. Haff, Main street, Monday evening next, at 8 o'clock. The meeting will not have a formal programme, and is called for the double purpose of discussing the work of the past year and the examination questions thereon, and of laying plans and making suggestions for the coming year, which begins Oct. 1st. All the members of the Circle are earnestly solicited to be present.

Leonard by the Old Timers' Telegraph Association in the cemetery at this place, was unveiled on Thursday afternoon, in the presence of a delegation of that organization. Rev. Jos. T. Two freight trains going east, on Tuesday night last, were wrecked by the rear train running into the other at Spring Station. An engine and several cars were derailed and considerable damage done. The passenger train due here at 8:20 on Wednesday morning did not arrive until 9 o'clock, the wreck not having been cleared in time for the train to make schedule time.

An old and afflicted colored woman, living on North St. Clair street, in this city, had a large cage full of trained canary birds, which, being bed-ridden, she had trained until they were really wonderful. One day this week she heard the birds crying as if in great fright and distress. She sent one of the family to look after them, when it was found that a large cow-sucker snake had crawled up the side of the house to the second story and into the cage and had killed her much loved birds. The snake was killed and measured nearly four feet long. The mystery is how such a large snake could have gotten through the close bars of the bird cage. Our sympathy extends to this poor woman whose one life's pleasure is now gone.

The Chesapeake and Ohio Railroad and its connecting lines propose to give one of their grand and unrivalled excursions to Old Point Comfort and Newport News on August 10, 1886. To any one who has been over this route it is not necessary to say anything, and to those who have not, it is only necessary to say that here is an opportunity for a splendid trip and one that you will never regret. All the grand scenery in West Virginia is to be seen at its best advantage. And then the cool and invigorating sea bathing, fishing, &c., at the end of the trip is enough to make a fellow turn green with envy when we are sweltering here with the mercury near the running over point.

Sterling on Aug. 9 and 10, and will be good on the return trip until August 20. The old town clock has been silent for a week, owing to the fact that a new winding apparatus has had to be put in, on account of the hammer now being used to strike the ball being so heavy as to require larger wrights. Mr. J. B. Meek, who now has charge of it, has taken advantage of this necessary stoppage to thoroughly overhaul and clean the works, something that has not been done for years.
